

DATA SHEET

EVO Ø160 LONG FLANGE 16.000 Lumen

STAINLESS STEEL AISI 316L

The Sea Led Evolution Series is the new line of underwater lights by the Cantalupi Group. It's designed to achieve first-class lighting performance and to ensure the safety of the boat. This is a special fiberglass thru-hull product and it's up to 90 mm thick.

It can be disassembled from the inside to replace the lighting core.

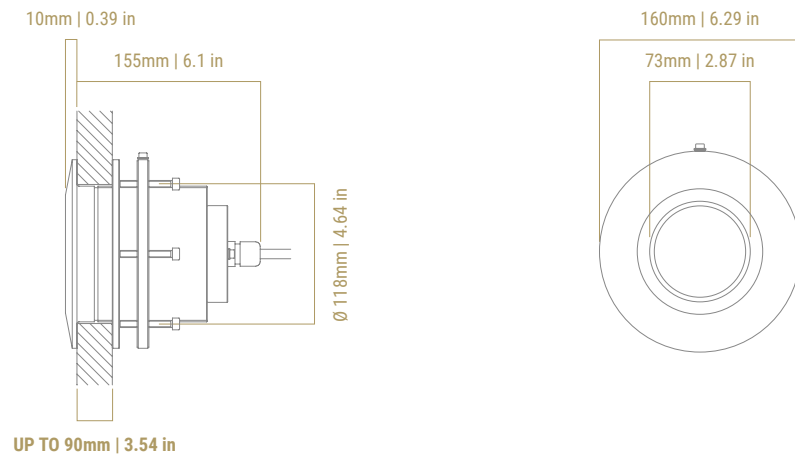

3 different light cones are available.
